

**VITIPRINTS**  
THE FUTURE IS FLAT

## **Vitiprints Humanitarian Overview**

---

Our Plan to Make a Meaningful Impact

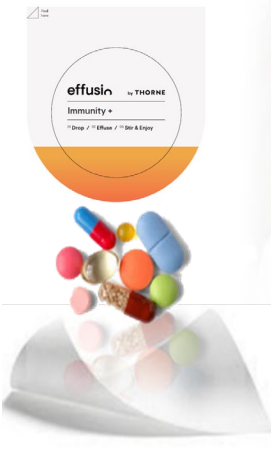

# Our Vision

Everyone deserves a chance at a healthy life.

At Vitiprints we focus on where we can make the greatest impact on health, both proactive and protective. Pandemic viruses to malnutrition threatens the health, well-being, and future of families around the world, every day.

# Our Impact

The VITIPRINTS Health / Wellness Printed Applications

## Masks

Masks and PPE printed with Viracide Antiviral coating eliminates virus and pathogens within 1 minute including COVID 19

## Milks

High Speed printing of both alternative milks and dairy based milks enables widespread distribution and long-term storage of fresh milk across the planet

## Vitamins

Reducing 3D vitamins and nutraceuticals to a flat dissolvable wafer enables any drink to become a fully functional beverage and can be applied to OTC and Pharma

## Air

Utilizing our Viracide coating on filter type substrate allows for any aerated space to utilize airflow as an active viral killing process

# We Are A Technology To Change Life

For A Healthy You & a Healthy Planet

## VIRACIDE MASKS

The lowest cost +  
highest functioning  
antiviral masks available

## PRINTED VITAMINS

High Speed printing allows for  
massive price reductions for  
increased free distribution

## PRINTED MILKS

Printed as discs or  
sheets allows long term,  
non-refridgerated storage

## SAVE THE PLANET

Elimination of plastic and  
decrease transport costs  
= healthy environment

# Viracide

Printed Protection from Virus & Pathogens

## Antiviral Masks-Gloves

Viracide's Antiviral Technology is applied to Woven Reusable Masks and Non-Woven Disposable 3 Ply and KN95 Masks & Gloves

## Antiviral Soap Signage

Viracide's Antiviral Printed Soaps provide a full sanitizing wash with hours long protection all in a compact form factor

## Antiviral HVAC + Films

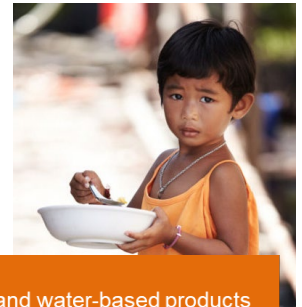

Printed PPE with Viracides' Antiviral Coating includes HVAC Filters, Film Wraps for Counters, Door Handles

# Printed Health

Printed Health & Personal Care

## Overview

**Vitiprints** is a customizable print technology platform that enables 3D based pills, beverages and water-based products to be reduced to a 2D precise multi-layered form factor. Our patented technology can be utilized to create 2D printed edible & nonedible products ranging from sublinguals, drink disks and sheets in a wholly new category of fully functional, environmentally enhanced cost-effective products eliminating any need for plastic packaging or components

## Key Applications

Printed  
Functional  
Filters

- Pod or Capsule type filters or inserts with printed vitamins, probiotics and wellness nutraceuticals
- Fully customizable

Printed  
Functional  
Discs

- 100% Soluble disks for coffee, sports drinks, tea, sweeteners and milks
- Includes versatile Graphics & Security options

Printed  
Functional  
Pills

- Provides exact dose with ultra-convenience
- Reduces cost and waste

Printed  
Sheets

- Paper based substrates with soluble Food, Personal Care,
- Industrial Grade Products – Fertilizers, Detergents, Cleaning

## 01. OUR TECH

Pioneering advanced print techniques that are applied across multiple verticals from pharmaceuticals, antivirals, vitamins, milks, functional beverages and personal care

## 02. PROBLEM

World health augmentation via high-speed print platforms. Massive reduction in environmental impact by reducing water volume in products reducing packaging in both paper and plastic in multiple verticals

## 03. SOLUTION

Elimination of plastic and paper excess by removing unnecessary water volumes in products and resulting reduction of carbon footprint related to manufacture and transportation of water-based products

# We Can Change Everything Together Working with Others

**First Responders** Provides Financial and now Health support to Responders and their families in the fight against Covid and responding to the safety & well being of all

**Vitamin Angels**  
Fighting hunger and malnutrition in over 130 countries around the globe
